This is the summary of the preliminary reporting service!

Original namelist version.

Global mean time series for CMIP5_12x6II_historical_r1i1p1 and ESA-CCI sea surface temperature (upper row). Additionally, differences are shown in the lower row, both in absolute values and relative to the ESA-CCI data set. (V. 2017-03-14 11:17:18.764470)

Config:

This is a config file for CCI data and CMIP5 sea surface temperature diagnostics
